WHAT ARE SKILLS FOR LIFE?

The six essential character skills young people need to thrive

- Communication
- Self-Belief
- Teamwork
- Problem-Solving
- Self-Management
- Leadership

WHAT IS KLOODLE?

A digital platform for character development

Kloodle is a digital platform that enables young people to build a dynamic portfolio of their character development. Students tag everyday activities—from sports to volunteering to classroom work—against the six Skills for Life, creating a visible record of their growth.

HOW STUDENTS BUILD THEIR PROFILE

- 01 DO**
Activity or Experience
- 02 TAG**
Skill Demonstrated
- 03 EVIDENCE**
Upload Proof
- 04 GROW**
Build Portfolio

WHY THIS MATTERS FOR YOUR SCHOOL

Supporting every dimension of school success

✓ Ofsted Personal Development

Provides clear evidence of character education and personal development. Shows how every student builds skills beyond the curriculum.

✓ Future Employability

Creates a digital portfolio students can share with employers, colleges, and apprenticeship providers. Demonstrates character alongside qualifications.

✓ Mental Health & Wellbeing

Builds self-awareness, confidence, and belonging. Students see their progress and feel valued for who they are, not just their exam results.

✓ Whole-School Consistency

Gives every teacher a shared language and framework for character development. Tracks progress across year groups and activities.

1,600+ Students Across Manchester

Already piloted with 1,600+ students across Manchester, Skills for Life addresses the city's response to young people voting for a curriculum that prepares them for life, not just exams.

Manchester Skills for Life

"Every child should have a personal learning plan to guide their journey. In the past it's been too hard to do this—too bureaucratic—but now we have the technology."

Professor Phil Cummins
